

LONG TERM PLANNING Key Stage 1 Religious Education

Religious Education (RE) is a statutory requirement for all schools but it is not part of the national curriculum. The agreed syllabus for RE in Northamptonshire was revised in 2018 and is the responsibility of the local authority.

Aims

The aims of the syllabus are for pupils:

- to develop religious literacy;
- to acquire and develop knowledge and understanding of Christianity and the other principal religions and world views represented in the United Kingdom;
- to develop an understanding of the influence of the beliefs, values and traditions on individuals, communities, societies and cultures;
- to develop attitudes of respect towards other people who hold views and beliefs different from their own;
- to develop the ability to make reasoned and informed judgements about religious issues, with reference to the principal religions and world views represented locally and in the United Kingdom.

Religions deal with some of the most profound and difficult questions in human life, questions such as:

- What is the purpose of life?
- How should people treat each other?
- How do we explain and cope with death and suffering?

Religions approach these issues in complex ways, in ways of life, culture and action, as well as ritual, tradition, story, symbol and belief. Religious Education must take account of this depth and complexity, helping pupils to an understanding appropriate to their age and aptitude.

Attainment Target 1: Learning about religion and belief

This includes enquiry into, and investigation of, the nature of religion, beliefs, teachings and ways of life, sources, practices and forms of expression. It includes the skills of interpretation, analysis and explanation. Pupils learn to communicate their knowledge and understanding using specialist vocabulary. It also includes identifying and developing an understanding of ultimate questions and ethical issues. Learning about religion covers pupils' knowledge and understanding of individual traditions and how they relate to one another as well as the study of the nature and characteristics of religion.

Attainment Target 2: Learning from religion and belief

This is concerned with developing pupils' reflection and response to their own and others' experiences in the light of their learning about religious traditions. It develops pupils' skills of application, interpretation and evaluation of what they learn about religious traditions. Pupils learn to develop and communicate their own ideas, particularly in relation to questions of identity and belonging, meaning, purpose and truth, values and commitments.
